

Visit Connect Web App

2nd May 2023

Visit Connect Web app

Visit Connect is built as web application, no need to download or install.

It uses progressive web technology and is fast, hassle-free, accessible, secure.

Visit Connect can be used offline

Usage Modes

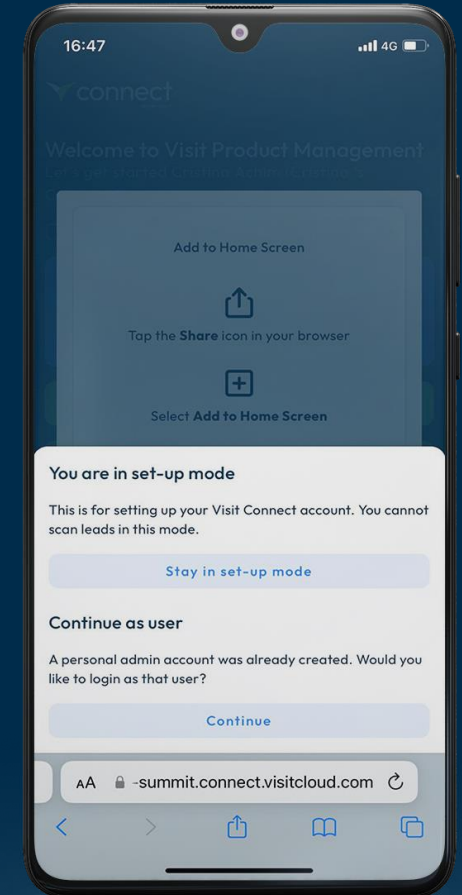

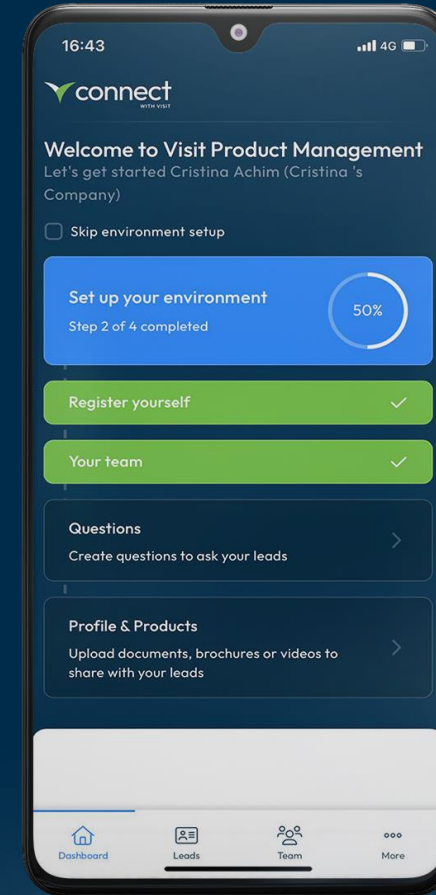

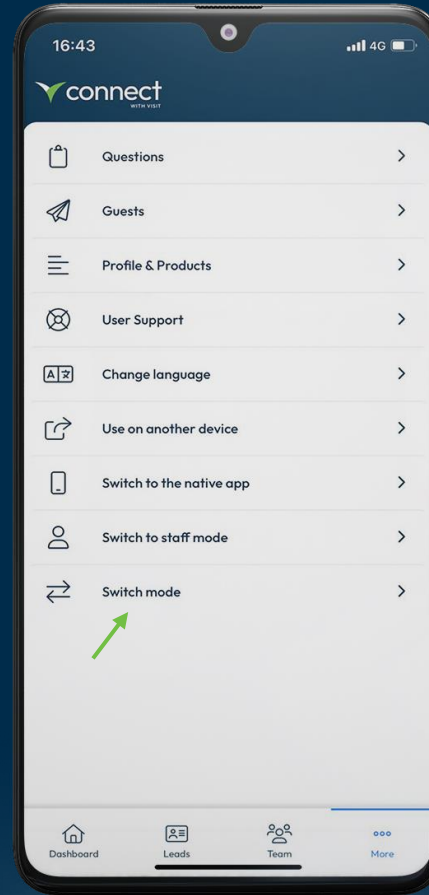

Visit Connect has 3 usage modes:

Set-up mode – configures and manages Visit Connect for the entire team.

Note: Visit Connect is always first shared in a set-up mode, with the main contact person, who is regarded as the Administrator.

Staff mode – personalized access which allows for lead capture and management.

Scan-only mode – generic access which only allows for lead capture.

Team & Permissions

In **Set-up mode** an admin user can control team **permissions**

Permissions include:

- Admin permissions
- Allow team member to capture leads
- Allow members to view all leads collected by the team
- Allow export leads

User

Name*
Molly White

Email*

Assigning scan licenses

Grant one, multiple, or unlimited scan licenses to all, individual, or multiple exhibitors, depending on event needs.

The number of licenses made available may influence costs.

Exhibitors can view the number of used and available licenses in their Visit Connect **Set-up** mode.

Visit Create:

Leads

Allows exhibitors to scan and manage leads.

Automatically create scan licence for each exhibitor

Unlimited activations Max. activation count *
3

Costs may be involved when enabling this feature

Lead Synchronization

Active License + Internet Connection

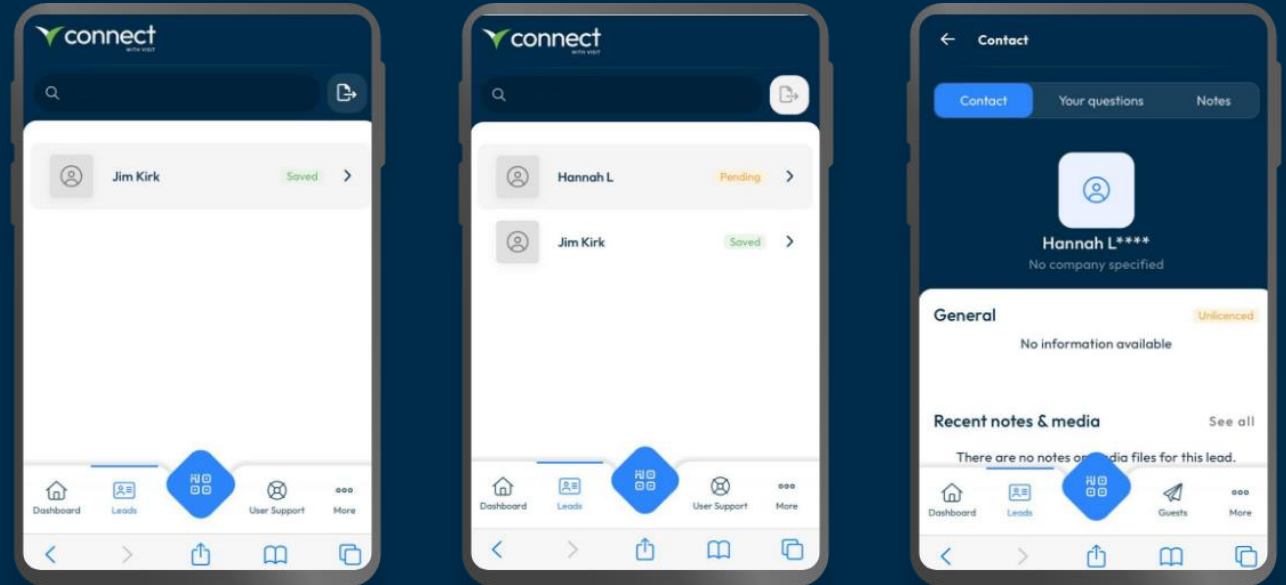

Leads get synced to the Visit Connect Portal

Active License + No Internet Connection

Leads will be stored locally and synced when application will be running with active internet connection.

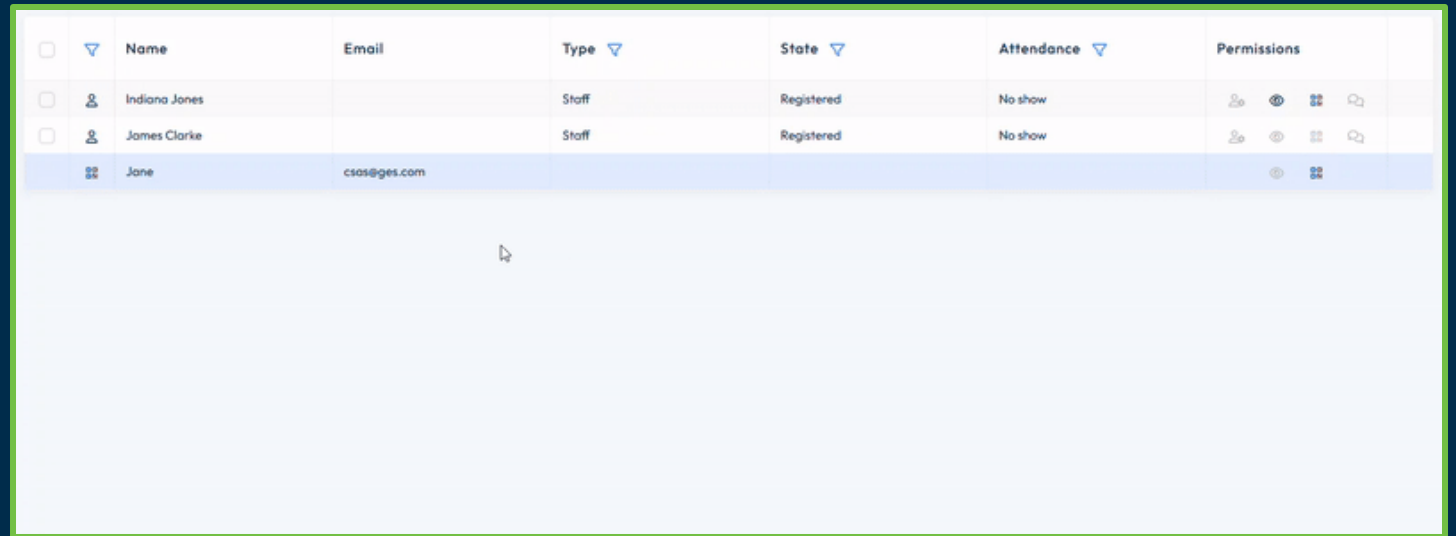

Internet Connection + No License

Leads will be available once a license is obtained

Lead Export

Leads can be exported if the user has the **export permission**

Questions from Exhibitors

How to support your Visit Connect users at events

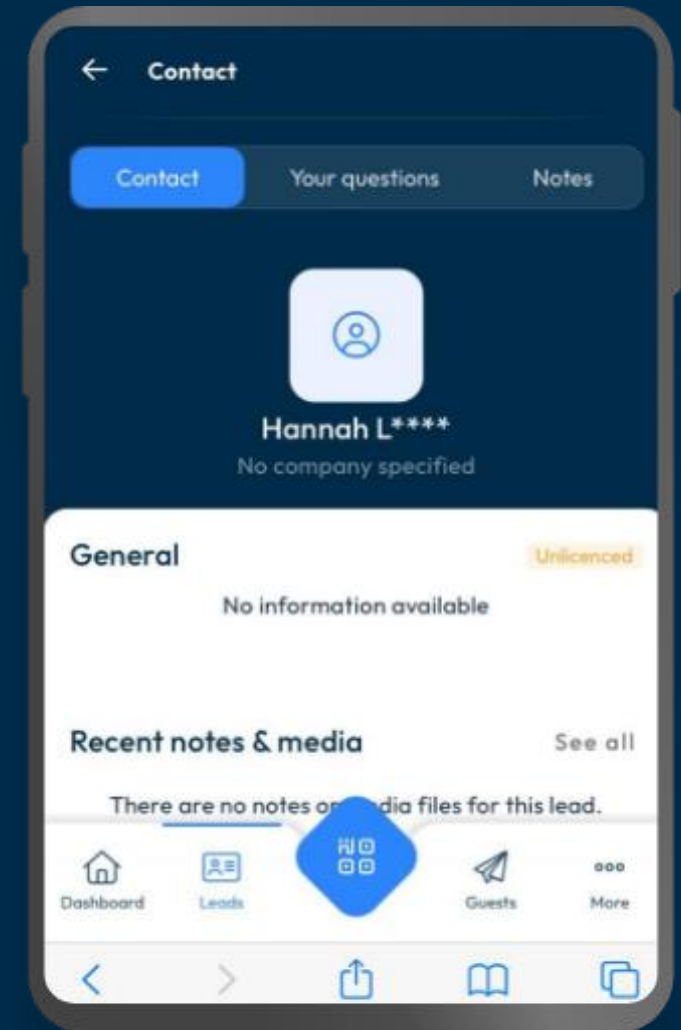

1. How can I get a license?

Visit Connect can be used without a license

Minimum information about lead is displayed
(no data connection required)

License can be obtained from event organizer or
Visit Connect online shop

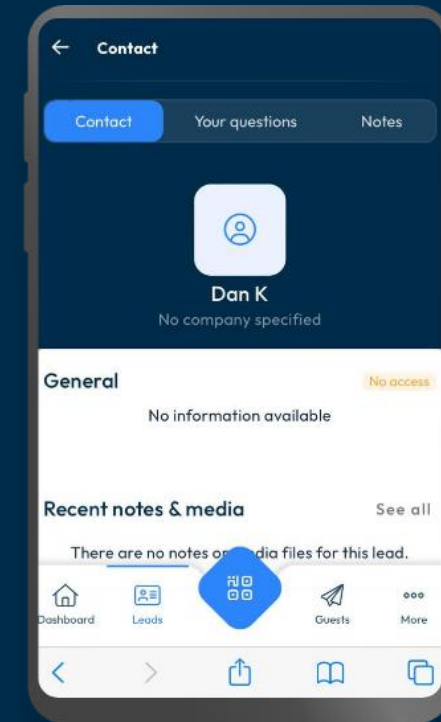

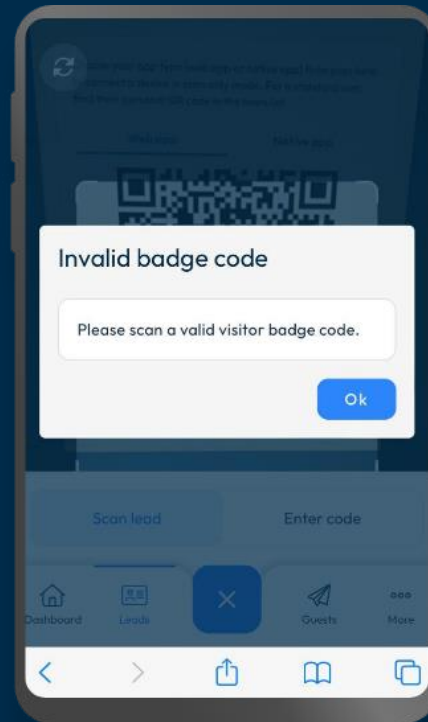

2. Leads are not synchronizing

Ensure your user is scanning a **Visit badge** QR code

No access means the lead is from another event

The active event can be confirmed from the dashboard

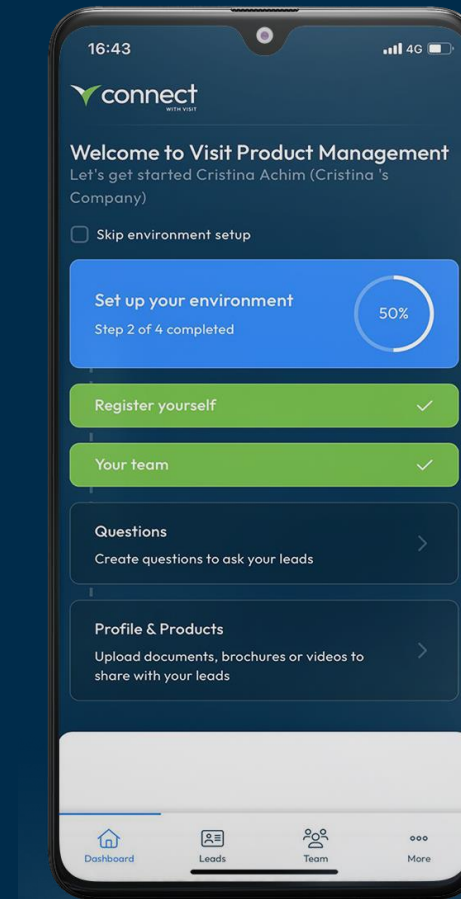

3. The Scan button is missing

Visit connect is in setup mode

Options:

- Open link for team member user
- Open using Scan Only QR

Summary

- How to access Visit Connect Web app
- Differences between **Setup**, **Staff** and **Scan Only** mode
- Adding to desktop for quick access
- Live demo as **Scan only** users
- Supporting exhibitors
