

Dear #first_name#,

The success of your participation in #event_name# will rely on how well you are able to engage visitors and take your lead opportunities to the next level.

Visit Connect is the official event software that gives you a suite of tools to attract visitors, gather sales leads and share your profile and product information. Visit Connect gives you total control over your event-generated sales leads, and helps you take full advantage of every opportunity at #event_name#.

Connect App

Connect Scanpoints

- You can gather detailed prospect data and qualify leads in real-time by scanning visitors badges.
- You can review and share leads with your team for a rapid follow up.
- Visitors can scan the QR code on your booth to collect your information.
- QR Codes can be displayed on your booth.
- When a visitor scans your QR code, you collect their details.

Prepare to collect leads

Log into Visit Connect to set up your lead generation tools.

Best of all, Visit Connect can be used by unlimited stand personnel. Visit Connect puts the success of your participation in the palm of your hand.

See you at the show,
The Visit Connect Team

Visit Connect is designed to operate offline when there is no internet connection. However, you must ensure that all devices are online before the end of the event and are synchronised to the Visit Connect portal.
